Clarke University Community Health Services

Providing personalized nursing
care to you and your family
throughout your pregnancy
and after the birth of your
child.

Collaborative Care: Clarke University Community
Health Services collaborates with the following
agencies for referrals and follow-up care.

- Dubuque Community Schools
- WIC
- Hillcrest Mercy Maternal
- Finley Suite Beginnings/VNA
- Mercy Hospital
- Keystone
- Parents as Teachers
- Hillcrest

Caring for new moms and babies

Expecting a baby can be one of the most exciting
and rewarding experiences as a parent. It is a
time of many changes, new feelings, and many
questions.

Clarke University Community Health Services is
available to help you and your family throughout
your pregnancy and after, to answer any
questions or concerns you may have.

Before your baby arrives....

we will help you prepare for the birth of your
child by: ensuring that you have access to
adequate prenatal care, answering any questions
or concerns you may have, assisting you in
securing all the supplies that you will need for
your infant and referring you to other agencies
as needed.

After the birth of your child...

we will arrange a time that is convenient for you
to come for a scheduled home visit. A qualified
Nursing Faculty and Senior Level Nursing
Student will come to your home and perform a
full assessment of both you and your infant. We
will answer any questions you have regarding
support, feeding issues, parenting concerns, and
safety.

All of our services are offered **free of charge** to
you and your family through grants and private
donations that we receive.
